	Weak batteries	Replace vehicle batteries with new "AA" batteries
Vehicle responds to multiple control pads/players	Vehicle not in use for extended period of time, preparing to power down	Select vehicle
	Mode Switch is set to "B" position	Set the Mode Switch on the bottom of the Control Pad to "A"

HARDWARE PRECAUTIONS/MAINTENANCE

- For indoor use only.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or nickel cadmium batteries.
- Remove the batteries during long periods of non-use. Never leave worn-out batteries in the vehicles. Battery leakage and corrosion can damage the vehicles.
- Do not attempt to re-charge non-rechargeable batteries.
- Rechargeable batteries should be removed from the toy before being recharged. Charging of rechargeable batteries should only be done under adult supervision.
- Do not short-circuit the terminals of the battery.
- Remove exhausted batteries from the vehicles.
- Do not disassemble the Command Deck, Control Pad, or any of their parts.
- When AC Adaptor is not in use, unplug it from the electrical outlet.
- Use only the ROKENBOK AC Adaptor supplied with the system. The AC adapter is not a toy. Using a different AC adaptor may damage your system and will void the warranty.
- Do not place the ROKENBOK Command Deck, Control Pad, AC Adaptor, or any ROKENBOK Vehicles in sand, dirt, water, or damp areas.
- Radio interference can occur if more than one radio control car or other radio device is operating on the same frequency. For best performance, please be sure to maintain a distance from: radio devices such as nursery monitors, cordless telephones, or other radio control cars on the same frequency, high voltage electrical wires, reinforced concrete buildings or CB radios.

ATTENTION PARENTS

- It is recommended that you periodically examine the product for any potential hazards and that any potentially hazardous components be repaired or replaced. If service or repair is needed, discontinue use and contact Rokenbok Customer Service (see Warranty).

CLEANING

- Only a clean, dry, soft cloth should be used to clean electrical components.
- Electrical parts are not washable.
- Building pieces and non-electrical elements can be washed by hand using warm water (104 degrees Fahrenheit/40 degrees Celsius) and a mild liquid dish detergent. Air dry. Make sure all parts are completely dry before using your ROKENBOK System.
- Never use steel wool or similar abrasives on Command Deck, Control Pad, AC Adapter, or Vehicles and never use solvents of any kind on any parts.

CAUTION - HAIR ENTANGLEMENT

Hair entanglement may result if child's head is too close to motorized unit of this toy.

DANGER - DO NOT USE IN WATER

To prevent electric shock, do not immerse electrical components in water.

FCC RULES FOR A CLASS B DIGITAL DEVICE

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply within the limits of Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the retailer or an experienced radio / TV technician for help.

CANADIAN CATEGORY II STATEMENT

Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

CANADIAN CLASS B STATEMENT

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

TRANSFORMER INFORMATION

Transformers used with the toy are to be regularly examined for damage to the cord, plug, enclosure and other parts, and that in the event of such damage, the toy must not be used with this transformer until the damage has been repaired.
